PROFESSIONAL SUMMARY

Computer Science diploma student with hands-on project exposure across web application development, database-backed systems, and responsive user interfaces. Familiar with HTML, CSS, JavaScript, React, Next.js, Node.js/Express, SQL, MySQL, PostgreSQL, and Prisma through academic and personal project work. Completed a four-week internship in Web Development Using Python at Ensino Research and Development Pvt. Ltd. Seeking a full-stack development opportunity to strengthen engineering fundamentals and contribute to practical software products.

TECHNICAL SKILLS

Languages	C, C++, Python (fundamentals), JavaScript, SQL
Frontend	HTML5, CSS3, React, Next.js, Tailwind CSS, Vite
Backend & APIs	Node.js, Express.js, REST API concepts
Databases & ORM	MySQL, PostgreSQL, Prisma, DBMS/RDBMS
Tools	Visual Studio Code, Git (fundamentals), MySQL Workbench
CS fundamentals	OOP, data structures fundamentals, computer networks

INTERNSHIP EXPERIENCE

Web Development Using Python Intern | Ensino Research and Development Pvt. Ltd.

04 June 2026 – 01 July 2026

- Completed a four-week internship focused on Web Development Using Python.
- Gained practical exposure to web development workflows, application structure, and project-oriented learning.
- Prepared internship documentation and presentation material covering objectives, workflow, learning outcomes, and project work.

PROJECTS

Smart Hostel Management System (HostelOS)

Tech: Next.js, React, Express.js, Prisma, PostgreSQL

- Worked on a hostel-management application concept for student records, room information, and hostel entry/exit monitoring.
- Planned student movement logs with dates and timestamps, alongside a dashboard for hostel statistics and recent activity.
- Explored QR-code scanning to record entry/exit status and database-backed record management.

Service Finder Website

Tech: React, Vite, Tailwind CSS, JavaScript

- Built a responsive interface concept for discovering local service providers across categories such as plumbing, electrical work, cleaning, painting, mechanics, and AC repair.
- Designed service and worker listing sections with a distance-based discovery concept for 5 km, 10 km, and 20 km.

CodeSnippets

Tech: Project technology stack not confirmed

- Project concept for organizing reusable programming examples for convenient reference and code reuse.

MedPredict / MEDMIND

Tech: Project implementation details not fully confirmed

- Health-related prediction project discussed in academic project and internship presentation work; specific model, dataset, and deployed features are not listed because they have not been verified.

EDUCATION

Diploma in Computer Science | Uttarakhand Government Institute of Polytechnic, Bhimtal, Uttarakhand

2025–2027 | 5th Semester (as of October 2026) | CGPA: 7.63

Class XII — CBSE | Completed in 2023

Marks not provided

Class X — CBSE | Completed in 2021

Marks not provided

CORE STRENGTHS

Logical thinking • Problem-solving • Self-learning • Team collaboration • Interest in building practical web applications
